Subject: RE: Letter to ACAT

Hi Brandon and Steve-

Here are the questions my team thinks we'll get from the community/ACAT about the PA:

- What is a PA and why did EPA conduct one at this site?
- What are the PA findings? Did EPA's assessment uncover anything new?
- What are the next steps after the Preliminary Assessment? Will the site become a superfund site?
- Does this have any impact on the current investigation being done by DEC?
- How does EPA determine what makes a Superfund Site?
- What does this mean for my property value?
- Can EPA pay for more cleanup or do health studies to better understand the effects of sulfolane?

Let me know if you need anything else.

Thanks,

Ann

Just an FYI on where we are at with the letter.

Do you know if Steve is working on the FAQs? I think he wants this put into some fact sheet for inquires we may get with the PA release.

Hello Steve – we are ready to go with the letter to ACAT, however, we are not sending it out until we develop the FAQ that people might be asking. Do you have any suggested questions that you anticipate that will be asked?

I'll get the letter "polished" up (taking out the "track changes") and then send it as a draft to you again.

– Sylvia

Sylvia,
Do you know where we are with the letter to ACAT regarding the Flint Hills letter that Brandon has been working on ?
Thanks, Steve
